I am a results-driven and solution-oriented Web Developer with 1+ years of hands-on experience in building various web applications. Being a curious and creative individual, I am naturally passionate about technology and programming solutions. My ability to learn quickly and provide scalable solutions to complex problems will allow me to hit the ground running in the role of a Software Developer.

EDUCATION

York University, Toronto
Bachelor of Engineering

September 2017 - April 2021
Major in Software Engineering

CERTIFICATIONS

Angular MasterClass - Udemy
Java MasterClass - Udemy
Intro. To Python - Udemy
Node.js Intermediate Dev. - SoloLearn

EXPERIENCE

MNP Digital   July 2021 - Current
Front End Developer
- Utilized DRY principle to update the frontend design for the legacy application.
- Worked with peers to provide support and solve complex problems on a legacy Sitecore Platform.
- Spearheaded the design and development of front end for an AI-based document summarizer and ML application.

Chirp Media   April 2021 - August 2021
Front End Developer
- Implemented Resource Management System from scratch using Javascript, Vue.js and Parse Server.
- Optimized previous systems in Vue. that decreased loading times significantly.
- Implemented additional features while applying the DRY principle to increase modularity and expandability.
- Adapted system to handle multi-client views using the same components.

Y.K. Infotech   December 2019 - April 2021
Front End Web Developer
- Applied object-oriented principles to design and develop cross-platform, scalable applications using Javascript, Typescript, Angular, and Ionic.
- Created custom user interface and GUI elements using Figma, HTML, and CSS to improve user experience and usability.
- Implemented user authentication modules that improved reliability and data security.
- Performed debugging and refactoring to generate reusable code.
- Analyzed and performed unit testing to ensure bug-free application deployment.

SKILLS

Angular, Ionic, React.js, Vue.js, Monga DB, Redux, Java, PHP, HTML, CSS, Javascript, Typescript, Django, Node.js, jQuery, Express.js, APIs, MySQL, Derby DB, Python, Firebase, AWS, Git, Github, Gitlab, Jira, Agile(Scrum), Jenkins, Circle CI, Adobe Photoshop, Illustrator, InDesign
